**Description**

THIS TRAILER HAS A 2' DOVETAIL, BRAKES ON BOTH AXLES, STAND UP EQUIPMENT RAMPS WITH SPRING ASSIST.

In the hunt for a great trailer that can tackle your toughest jobs but tow like a dream? Check out the all new EQ10 from Iron Bull. 10,000 lbs of Gross Vehicle Weight Rating ensure you have enough capacity for your heaviest loads and expert craftsmanship combined with top-tier components ensure you have an effortless tow. It's a great fit for work and play. Dexter Nev-R-Adjust brake axles and radial tires provide a solid foundation for each Iron Bull equipment trailer and ample grip for stopping power. Sherwin-Williams Powdurda Powder coat gives each trailer a rugged finish with a showroom shine. USA made, lifetime recessed LEDs are provided by TecNic lighting. Each Iron Bull Trailer also comes equipped with stake pockets, pipe spools and rub rail, along with standard D-rings. Removable diamond plate fenders, and adjustable coupler with integrated safety chain holder. With Dexter Axles and tons of standard features, this model is a perfect fit for work or play. Tons of tie downs on this unit. Very versatile trailer! This unit is built fairly heavy for a 10K as it has 16" O.C. structural channel cross members (not 24" with formed cross members like many). Ideal for handling a short compact load like a small skidsteer or a large compact tractor. All Ironbull trailers are covered by the impressive Ironclad 2-3-2 warranty program (2 years structural, 3 year comprehensive, 2 year roadside), see below.
