Description

FOR SALE IS A LIKE NEE 2022 5x10' TUBE TOP UTILITY LANDSCAPE TRAILER!

Tube Top
o The Tube Top is the most popular of the tube top model utilities, as is the prototypical landscape utility. It's built plenty heavy duty, but not overbuilt. It's a stylish trailer that looks good, and tows very well. When not loaded, the gate folds flat inside the trailer for an even better ride quality. It's well engineered, and is one of only a few trailers that can handle the available payload on the ramp. It has all the features you can pack into a trailer this size and price range, and is an excellent option for a customer seeking a good value. We have other make/models of utilities in stock, but if you're looking for our best mix of features, craftsmanship (powder coat/wiring/weld quality), and ATV ramp sides, this trailer should receive a closer look.

Watch a video walk around of this trailer here: <https://youtu.be/hEm7egPBnhM>
