Price	$1,450.00

Description

This is our most economical utility trailer as it has a 2000# GVW. This is a great value for a small, entry level utility. Ideal trailers for someone hauling lighter weight materials, equipment (ATV, garden tractor, or similar) or running shorter distances, not so much regular interstate travel. While it is our most economical, it does have some features others at this price point do not, including:

- 2" A-frame coupler (not a 1 7/8")
- EZ Gate (Tooless gate removal...1 person, no tools required)
- Treated wood floor (not the mesh you often see)
- A-frame tongue (not a single piece tongue, known to bend over time)
- A-frame jack (no A-frame tongue, no place for an A-frame jack, less chance of dragging/cutting wire harness)
- No wiring above the deck (We've fixed/replaced above deck wiring many times, not a good idea. A-frame wiring is in loom)
- E-Z lube hubs (Makes bearing maintenance a breeze, 10 minutes, 1 time a year...competitors often don't have these).
- 5.3-12 tires (Most use 4.8-12...higher weight rating, larger tire = less revolutions)
