Description

STEEL FRAME POWER TILT CAR HAULER. EQUIPPED WITH OPTIONAL 15K HYDRAILIC JACK (PUSH BUTTON, NO CRANKING), DUAL TOOLBOXES, POWER UNIT, RUBRAIL UPG AND A WINCH PLATE.

A tilt trailer is nice as it gives full width loading, and has no beavertail at the rear to possibly drag on an uneven surface. This unit is ideal for cars, but can be used for a handful of other purposes, like a pair of UTV's, light truck, car, compact tractor, etc. Some features we like on this model include: Integrated slimline LED tail lights, 7K dropleg jack, 6" channel frame, HD channel crossmembers, ATP rock guard on the fenders, extra stake pockets, etc.

Watch a video of this model trailer here: https://youtu.be/g_8g_PL1kfY
