Description

THIS TRAILER HAS A INTEGRATED TOOLBOX AND OAK DECK UPGRADE. UNIT IS NEW, BUT HAS BEEN TITLED AND DE-RATED TO 12000#, AND HAS BEEN DISCOUNTED FROM NEW. CAN BE SWITCHED BACK TO 16000# GVW IF NEEDED.

This is an awesome trailer for loading a single piece of equipment, such as a bobcat, mini-ex, compact tractor, etc. The cushion dampener makes the decent seamless and controlled. The load angle is very low, allowing for loading low profile items as well, such as scissor lifts. A tilt has a few main benefits, including the ability to overhang, no beavertail to drag, full width loading, and an extremely low load angle due to drop axles. The +4' section in the front makes it handy for loading longer items like a full size truck, or for an attachment for a bobcat.
