Description

ABOVE ALL THE OTHER FEATURES, THIS UNIT IS EQUIPPED WITH UPGRADED 14-PLY TIRES (SAME TIRES THAT WOULD BE ON A TRAILER WITH A 8000# AXLE UPGRADE). PROVIDES ROUGHLY TWICE THE TREAD LIFE, HEAVIER DUTY COMMERCIAL TIRE.

The workhorse. This model provides a beefier I-beam frame (12", 19# beam - most are 14#), under frame bridge, includes a torque tube (resists flex for longer units and units going off-road), has a spare tire, etc over our lighter models. Also includes charcoal powdercoat, dual jacks, full front toolbox, lots of tie downs - rubrail/stake pockets/D-rings, has a channel side rail (not flat or angle iron), and more.
